DD/A/ODP   WEEKLY REPORT

Week of 28 October - 4 November 1977

I. Major Activities During the Past Week: (U)

A. Support to OTS   (U)

(U) 1. AD-STUDY - Project feasibility study performed
by ODP. We completed and provided to OTS a
feasibility study addressing a most likely
path modeling problem. OTS accepted our
recommendated approach for development of the
model, and we are currently proceding with
its detailed design. ███████████████████   25X1A

(U) 2. TISIPS - Technical Services Interim Support
Information Processing System. A set of
modifications was requested to be made to the
TISIPS software. These are expected to be
completed within a week. The second monthly   25X1A
processing cycle should also be completed at
that time. The computer services request will
be closed out upon the successful processing
of the monthly processing. ████████████

C. Support to OF   (U)

(U) 1. GAS - General Accounting System. The General
Ledger Monthly Update program was changed to
increase the allowable number of Obligation
Reference Number (ORN's) for any employee
from 100 to 300.

All Quarterly Reports were produced. These
were delayed due to the Fiscal Year-End Closing.

CONFIDENTIAL

The programming and testing was completed for
a new version of the Daily General Ledger 1199
Cash Report. A copy of the report will be
given to OF for review. Upon approval it will
be incorporated into the daily process.

Maintenance was performed on the Obligation
Data Base to remove 1500 records with a zero
amount of obligations. ▉▉▉▉▉▉▉▉

(U) 2. <u>PAYROLL</u> - The Agency payroll system. We began
<u>W-2</u> system modifications. CEMLOC - Payroll
interface programs were executed to produce
preliminary reports. Results were tolerable
(compared to other years) - only four missing
SSN's, 103 staff missing addresses, and 65
contract missing addresses. ▉▉▉▉▉▉▉▉

(U) 3. <u>ACTUARY</u> - Actuarial reports on the Agency
retirement system. The erroneous data items
on the master tape have been corrected. The
report programs were modified to produce the
appropriate classification as requested by
the customer. The 1973 actuary reporting
period has been successfully processed. ▉▉▉▉▉▉▉▉

II. Problems: (U)

1. The 1st meeting on the Hospitalization and Insurance
requirements review was held. Only a small portion
was reviewed and four problems surfaced that require
further investigation and in some cases OP policy
decisions. These problems need to be resolved before
the feasibility paper is considered completed.   25X1A

2. Transmission errors substantially limited the use of
the Delta Data terminals at ████ Building during the
past week.
